

Universal precautions

Ottawa, Canadian Public Health Association, 2002

Cat # 32246

<http://library.catie.ca/PDF/P7/19661e.pdf>

This fact sheet explains, with the help of illustrations, the universal precautions used to prevent the transmission of communicable diseases such as hepatitis B, hepatitis C, and HIV.

Women & HIV : This virus doesn't care about anyone's age, race, culture, orientation, religion or sex.

Ottawa, Canadian Public Health Association, 2006

Cat # 31334

<http://pubs.cpha.ca/PDF/P33/23061e.pdf>

This pamphlet provides women with information on risky activities, testing, symptoms, pregnancy and childbirth. It illustrates the proper use of condoms and female condoms, and lists provincial HIV/AIDS hotlines.

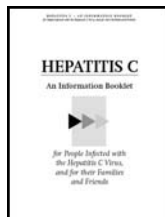

Hepatitis C : An information booklet for people infected with the Hepatitis C virus, and for their families and friends

Canadian Hemophilia Society, 2003

Cat # 31742

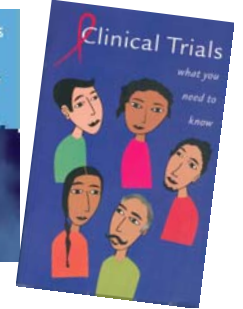

<http://library.catie.ca/PDF/P2/21189.pdf>

Provides information on Hepatitis C and is intended for persons infected with this virus and their families.

Basic facts about HIV & AIDS

Ottawa, Canadian Public Health Association, 2004
Cat # 30058

<http://pubs.cpha.ca/PDF/P8/21150.pdf>

This bilingual pamphlet contains general information on HIV/AIDS transmission, prevention and testing.

Caring safely for people living with HIV or AIDS

Ottawa, Canadian Public Health Association, 2005
Cat # 31735

<http://library.catie.ca/PDF/P7/20672e.pdf>

This pamphlet contains information on HIV transmission, as well as infection control measures for caregivers of HIV-positive persons.

Clinical trials: what you need to know

Ottawa, Canadian AIDS Society & Canadian HIV Trials Network, 2004
Cat # 32243

<http://www.hivnet.ubc.ca/e/clinicaltrials/pdfs/handbook.pdf>

This booklet aims to give people living with HIV, their families, friends and others some basic information about clinical trials. Its purpose is not to endorse any particular trial or to try to persuade people to participate.

Safer Sex menu: Table d'hôte, à la carte or buffet

Ottawa, Canadian Public Health Association, 2005
Cat # 31336

<http://library.catie.ca/PDF/P7/19667.pdf>

This safer sex booklet is set up like a menu. It explains the types of sexual activity and the level of risk associated with each one.

Oral sex

Ottawa, Canadian Public Health Association, 2006
Cat # 30059

<http://pubs.cpha.ca/PDF/P36/23212.pdf>

This plain-language pamphlet provides information on how to practice safer oral sex. It illustrates the differences between male and female sexual organs, details the risks for contracting HIV and sexually transmitted infections through oral sex, and lists some pros and cons of getting or giving oral sex.

Serodiscordant relationships

Ottawa, Canadian Public Health Association, 2006
Cat # 31945

<http://library.catie.ca/PDF/P16/21260e.pdf>

Serodiscordant relationships raise the thorniest set of issues because they must face major concerns about both transmission and care-giving.

Sex + HIV : It's worth knowing the facts and risks : a booklet for teens

Ottawa, Canadian Public Health Association, 2006
Cat #: 31333

<http://pubs.cpha.ca/PDF/P17/21369e.pdf>

A booklet for teens with information about sex and HIV. It discusses the risks of getting HIV and other STIs through sexual activities. It also includes definitions, quizzes, and on-line resources.

Sex toy stories - A user's guide to HIV and STI prevention

Ottawa, Canadian Public Health Association, 2005
Cat # 32245

<http://library.catie.ca/PDF/P25/22058.pdf>

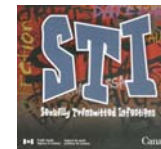

This illustrated pamphlet describes the proper care and use of sex toys made from jelly, plastic, rubber, latex, cyberskin, silicone and glass. It talks about how to choose sex toys and how to properly sanitize them to reduce the risk of sexually trans-

Sexually Transmitted Infections

Ottawa, Public Health Agency of Canada, 2007
Cat # 32244

This booklet discusses the spread, signs and symptoms, causes, effects and treatments of sexually transmitted infections (STI). The types of STIs covered include: chlamydia, gonorrhea, trichomonas, pubic lice and scabies, genital herpes, genital warts (HPV), hepatitis B, syphilis, and HIV/AIDS. It also includes information on how to use male and female condoms.

Talking to kids about HIV/AIDS

Ottawa, Canadian Public Health Association, 2005
Cat # 31332

<http://pubs.cpha.ca/PDF/P25/22195e.pdf>

This bilingual illustrated booklet provides basic facts about HIV and AIDS, and includes suggestions for parents and other significant adults on how to discuss HIV/AIDS with kids.
